Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to these about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Rose Place, or at the store of M S Jackson, on Exchange st, and at either place any article may be obtained or large quantities ordered.

Mr Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, that no one should think of building in the old and slow and ... fashioned methods.

Sewing Machines.

To Clothiers, Tailors, &c.

NOW IS THE TIME, during the dull season, and before the hurry of business, to introduce the Sewing Machine. An investment of $125 in a Sewing Machine will procure more clear profit than a much larger sum invested in any other way. Having settled all suits against our Machines, there is not a shadow of claim against them. The Excelsior and Dorcas machines, both infringing our patent, we have prosecuted in the United States Court, having jury trials in separate Courts, and we have come out triumphantly. Next the Wheeler & Wilson, and the Grover & Baker, are expected to come off this month. We therefore caution the public not to purchase or use any of the infringing Machines, if they desire to escape litigation, for we shall claim our rights

I. M. SINGER & CO

Sewing Machines.

The great and peculiar advantage of Singer's Sewing Machine is this

One Machine will perform every kind of work perfectly by simply changing the Needle and Thread; the machines are simple in their operation, strong, durable, and not liable to get out of order

IMPORTANT

To Ship-Builders, and others using Copper Fastenings.

The subscriber is now prepared to furnish

E. E. POMEROY'S

PATENT COPPER-COATED IRON SPIKES, BOLTS, DECK BOLTS COPPERED SHEET IRON,

With all kinds of FASTENINGS used for Ships, from the only manufacturers in the United States—C & J MARSHALL Newport, Del—superior in strength, and at about ONE HALF the cost of Copper Fastenings.

Orders sent to TRAIN & PHIPPS, No. 41 Commercial Street, Boston, or to the subscriber, (who is the only Agent for their sale and manufacture in the New England States,) will meet with prompt attention.

Samples sent to order, with certificates from A A Hayes, Assayer to the State of Massachusetts, also of the Committee on Science and the Arts of the Franklin Institute, Philadelphia, and of those who have used and are using the Fastening

[Copy of a Letter]
BALTIMORE, Jan 8, 1856

Messrs C & J Marshall—Gentlemen At the request of your Agent in Baltimore, in regard to our opinion and experience of your copper coated spikes, we, without hesitation, say we believe them the best substitute for copper yet introduced, and better fastening for ships, inasmuch as you have the strength of iron with the preservative qualities of copper

We have used some of your Spikes in old vessels as a substitute for copper, and have had occasion to draw them out a year afterwards, and found them with the coating as firm as when they were driven, and with no appearance of oxidation.

Very respectfully yours,
(Signed) JOHN D. FARDY & BRO.

GREAT

American and Foreign Office,

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U S PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St.,

BOSTON

IMPORTANT INFORMATION TO INVENTORS —The subscriber, (late Agent of the U S, Patent Office under the Act of 1837) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him within thirty days after the rejection

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors

Copies of the claims of any patent furnished for one dollar Assignments recorded at Washington. Patents secured in Great Britain, France and other foreign countries, through agents of the highest respectability

R H EDDY, Solicitor of Patents.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R H EDDY, Esq, of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office and there were none who conducted it with more skill fidelity, and success I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents"

[From the present Commissioner]

"AUGUST 17 1855 —During the time I have held the office of Commissioner of Patents R H Eddy Esq of Boston has been extensively engaged in the transaction of business with the Office as a Solicitor. He is thoroughly acquainted with the law and the rules of practice of the office I regard him as one of the most capable and successful practitioners with whom I have had official intercourse

A Movement for Reform in our Postal System.

We have received from the Postal Reform Committees of New York and Boston, copies of an excellent Address to the People, and blank petitions to Congress, asking for various changes and improvements in our postal system, some of which we regard as of the highest importance. A money order system would be particularly beneficial, and ought to be adopted in this country as it has been in England. The petitions that are in circulation ask for the following:

1. A Uniform Postage of Two Cents on all letters not exceeding half an ounce in weight, throughout the United States. 2. Receiving Houses and Letter Carriers in all cities and principal towns. 3. Money Orders from one Post Office to another, for sums not exceeding twenty-five dollars. 4. A Uniform and Low Rate of Ocean Postage. 5. The Postage on Printed Matter, to be paid out of the Treasury. 6. The Abolition of Compulsory Pre-payment. 7. The Return to all Dead Letters to the writers.

These several points have been discussed and must generally commend themselves, not only to the country, but to the law-makers at Washington. Every principle here, except Cheap Ocean Postage, has been in successful operation in Great Britain, for many years, and nearly all of them in several of the Continental States of Europe.

Of the advantage of uniformity there can be but one opinion. Before there was uniform postage in Great Britain, the cost of labelling and sorting the letters in that country was $30 for every thousand letters, and since uniformity, the cost has been but $7 a thousand, and this includes all the expenses of letter carriers, and receiving houses. The 443,000,000 letters in Great Britain, in 1854, cost in the handling, (not transportation,) the sum of $3,233,195, which at the rate of cost before having, a uniform postage, the expense would have been $13,309,470. These facts are disclosed in Mr. Pliny Miles' Pamphlet on "Postal Reform."

To use the language of Putnam's Magazine, "We are now enduring a Postal System which worries government, vexes and injures the public, demoralizes the officers, and pleases nobody. At the same time, in Great Britain, they are enjoying a Postal Reform which enriches the government, serves and benefits the public, controls the officials and satisfies everybody. • • A call is made on our merchants, leading men, and the public generally, to stir at once in this matter, with decision. We echo this call with all our heart, and will not despair of the triumph of facts and common sense."

If we had a system of drafts or money orders between all of our principal Post Offices, should we see the daily catalogue of mail robberies, losses and crimes, that now fill our journals?

If letters mailed intentionally, or unintentionally, without stamps affixed, whether by the rich or poor, by the learned or ignorant, and if letters that have their stamps lost or stolen,—if all these letters were forwarded to the persons addressed—should we hear of a small remittance to a poor woman being detained here, or of the detention of twenty thousand dollars there; or of the loss of an estate of thirty thousand dollars for want of a witness's testimony, confiscated to an unpaid letter; or of an actual loss of life from the failure of a letter from that cause? Should we hear of long catalogues of calamities like these, were it not for that most unjust law of compulsory pre-payment? Pre-payment of postage is very well, but when not prepaid, is it just to destroy the letters? With the charge of two cents when pre-paid, and double that in all cases when not prepaid, scarce a letter would go without pre-payment. It is a very grave question, and one which can scarcely admit of debate, whether all letters found without stamps, should be seized, taken to Washington, and burned, and that without giving any information to the owners. Such is the operation of the present law.

Petitions to Congress are now being presented to the people for signature, asking for the salutary reforms above named. In this city a petition for signature may be found at the bookstore of Messrs. Bugbee and Co. It should be signed by all who desire to do so, in season to have it forwarded to Congress as early as the 20th of May.

The very able Address of the Postal Reform Committee may be seen at our office.

The Rock Island railroad bridge across the Mississippi is at length completed, and trains have passed over it. The great problem was to build a draw sufficiently large to accommodate the Mississippi steamers. This has been done. The draw rests upon a centre pier of 38 feet diameter at the top, and its entire length is 291 feet in the clear. When open, it leaves a space of 137 feet over the main channel, free to boats—scope and verge enough for any vessel afloat. The draw is said to be a master-piece of mechanical adaptation and skill.

Olive Oatman, who was taken prisoner by the Yuman Indians in 1851, when her parents and five brothers and sisters were killed, on their way to California, has recently been ransomed by the officers of the U. S. army at Fort Yuma. She is now sixteen years, and is more fully developed than many girls of twenty. When brought into camp she threw herself on the sand, and would not rise till suitable female garments were given to her.

"The Backbone." This is the significant title of a Republican campaign paper, which is soon to be issued weekly from the office of the Cleveland Leader, Ohio. It is to be conducted by John A. French, Esq., well known to the editorial fraternity of New England, and a worthy son of the Granite State. He will have the assistance of the ablest pens in the country, and if he don't make two spines grow where there is one now, we are mistaken.—*Boston Chronicle.*

Supreme Court. The following cases have been disposed of since our last report:

Samuel Lord et al. vs. [illegible] Goddard, Assumpsit for driving logs on Penobscot river. Plff. claimed $12,000. Verdict for Plff. $689,37. Peters for Plff., Rowe [illegible] for Deft.

Francis Wyman vs. Wm. [illegible] Goddard. Assumpsit for promissory note, to which Deft's son signed his name by authority, which was afterwards confirmed. Verdict for Plff. A. Sanborn for Plff., N. Wi[illegible] for Deft.

Abram Sabborn vs. Nathan [illegible] Merrill Reported on testimony presented to the Jury. A. Sanborn pro se, Hilliard [illegible] Flagg for Deft.

John B. Hanscom vs. George [illegible] Savage. Trespass, in breaking, entering, and removing doors from a house owned by deft. and occupied by Plff. Verdict for Plff. Damages awarded $50. A. Sanborn for Plff., J. E. [illegible] for Deft.

O. B. Barrows vs. F. P. [illegible]der. Action for damages for a prosecution instituted against Plff. for conspiracy in the case of the liquors marked to towns of Corinth and Hudson, which were seized last year by the police of Portland. This case was put upon trial Wednesday afternoon. After proceeding to some extent, the case was settled by arrangement between the parties. L. Barker and A. W. [illegible] for Plff. H. Barker and A. Sanborn for Deft.

Police Court. April 23d. Last Ticket of Oldtown was arraigned upon a charge of stealing $25 from the person of Daniel Annis. Was ordered to recognize in $300 for appearance at the Supreme Court. Committed for want of bail.

The other cases for the week past have been nearly all for drunkenness—some seven or eight in number—the victims being fined for their extra indulgence in liquor.

The Maine Contested Election Case. We are informed from Washington that in the contested election case from the Sixth District in this State, which was decided in favor of Mr. Fuller, the Committee on Elections recommended the allowance of the usual mileage to Mr. Milliken, the contestant, and per diem *from the 1st of March*, instead of from the commencement of the session, as heretofore reported.

One Nathan Brown out west is said to have married nine wives in succession and run away with their property as soon as he could convert it into money. The seventh wife has finally proved too much for him. She was a Buckeye woman, and armed with a requisition from Gov. Chase, she has brought him back from the wilds of Indiana, where he was keeping honeymoon with his ninth, and he is now safe in an Ohio jail.

Missionaries.—On Friday next Rev. James Beecher, wife and child will sail from Boston, for Canton, where Mr. B. will enter upon his labors as a missionary. Mr. Beecher is a son of Rev. Dr. Lyman Beecher, and his wife is a native of Newburyport. They go in the ship Wild Pigeon.

We learn from the Boston Post, that the decision of the Supreme Court of Wisconsin in favor of the rights of its citizens against the Fugitive Slave Law, is a "Judicial Usurpation." More hanging to do.

Doubtful Honor.—The anniversary of the birth-day of Henry Clay, was celebrated at the Washes of Hanover, Virginia, (Mr. Clay's birthplace,) by Cabell Cushing, Stephen A. Douglas, Senators Mason and Bigler, John M. Botts, and others. According to the reported speeches, the four first-named in the above, exhausted their powers of eulogy over the memory of the Great Commoner. If Henry Clay could have arisen in the midst of these eulogists, who can doubt that a withering rebuke would have flashed from his tongue, making dumb with shame of men who, while he was living, spared him no obloquy that envy and malice could utter—who pursued his fair name and fame, like blood-hounds, to the death, and when death had laid him low (and Webster had followed him to the tomb) slandered, with impious and traitorous hands, to rend in twain one of the noblest works of his life—the Missouri Compromise. Alas! that the purest patriotism and truest greatness can only triumph when their illustrator has passed the portals of the grave. Stephen A. Douglas doing homage to the memory of Henry Clay, was a scene for the moralist—a spectacle of memorable repentance or more memorable hypocrisy—the sincerity of whose actors is known only to the great Searcher of Hearts! Let it be difficult as it may be, we have the charity to believe they were sincere.—*N. Y. Mirror.*

Some Little Bill. Dr. Thomas Crosby, of Greytown, is prosecuting before the Court of Claims, at Washington, a claim for $12,000 for the destruction of his property by the bombardment of that place. If he succeeds, at least *half a million dollars* more will have to be paid for that little military fact.

The commission of Austrian and Russian officers to rectify the Moldavian frontiers are in Paris awaiting orders. It is [illegible] the Russian plenipotentiaries propose [illegible] at Count Buol. Crimea.

Constantinople dates to the 31st [illegible] March. The Russian palace, presently [illegible] Grand hospital, is being cleared to [illegible] return of the Embassy.

The only news is the improved [illegible]lth of the French, both in the hospitals [illegible] the Crimea.

Rumors of Ministerial changes continue.

Austria.

The grand Council of Bishops will assemble in a few days to discuss the concordat. The Council represents twenty-nine millions of Catholics, Latin Greek and Armenian. The principal object of the Council is to restore the clerical marriage courts according to canon law and to reorganize the whole body of the clergy on fundamental church principles.

The Concordat abrogates the lower clergy's right of appeal from the Bishop to the Emperor, hence it is not popular with inferior Priesthood.

Russia.

Naval armistice was officially published at St. Petersburg, April 7th after ratification all ships seized will be released.

Commercial relations are reestablished between Belligerent powers. Merchant vessels of Western powers may enter Russian ports, and liberty of free navigation is also granted to Russian ships.

A third stated loan of fifty millions roubles is talked of.

The energies of the Russian government is said to be now devoted to three objects: firstly—a dance with France; secondly—completion of great Railways; thirdly—manufacture of Russian feelings on the continent, especially in Germany.

Republicanism and "Democracy."

There are those who suppose that the Republican party can be extinguished by a coarse and opprobrious nickname. There are those who believe, (or profess to believe), that as it is necessarily dangerous in its character, the good sense of the public will prove fatal to its perpetuity. There are those who despise and would trust it not because they believe it to be bad, but simply because they believe it to be good. There are those who have lived without reflection, and are still incapable of the exertion which it implies, who persist in thinking that the Republican party was organized without cause, and merely by accident, and who expect day by day to see it dissolve like the fabric of a vision. There are those who live only in the present. The past teaches them no lesson, and they kindly leave the care of the future to Divine Providence. With men like these it is perhaps useless to reason. Success, immediate, brilliant and lucrative, is the only standard by which they may judge any movement. They will continue to sneer, to libel, to nickname, and to slander the Republican party, until it has become an established power in the State. With every victory, their respect for it will inevitably increase and when, it has (as it will have) at its disposal the power and the patronage of the government, we care not to count how many of those who now profess to despise it will be found calling upon the immortal gods to witness that they have been for it from the beginning, have always sustained its principles, and have always predicted its success. The election of Mr. Banks staggered these gentlemen immensely; the election of a Republican President would make them the subjects of a conversion swifter than that of the Apostle Paul.

That the Republican party will make itself felt, and powerfully felt, in the approaching Presidential election, no one, qualified to judge of political affairs, will be likely to deny.—Pitching the slave States out of the question, it is already quite as strong as ever the Whig party was in its palmiest days. It controls great States by great majorities; its power in the House of Representatives is now beyond dispute; and, more than all, it has a hold upon the affections of the people, which time and circumstances cannot weaken. It is now the only party really alive in the United States.—The Democracy are its only antagonists. They, indeed, still seem to live, and to move, and to have a being. Yet nobody out of their own ranks can fail to see that they are nothing but an embodied tradition. It is acting under a false name; it is doing business upon false pretences; it is the veriest cheat and delusion in the world. Its heart is in the past. It can do nothing but appeal to precedent and patter phrases, which mean something when they were first uttered. A more bigoted, stupidly conservative, bitterly aristocratic party never existed. It used to talk of freedom of thought and action, of the progress of humanity, of the rights of the people. Now it chatters only of the power of the Government, of the sacredness of enacted wrong, of the danger of doing right. Beaten by the people, it retreats to the Senate, the most aristocratic body in the country. Cooped down by Congress, it relies upon Presidential vetoes. Fearful of the slightest expression of the popular feeling, it is always ready to appeal to the military power of the State. Afraid of free speech, it finds high treason in bold and manly avowal of opinion. In short, it is intolerant, persecuting and tyrannous. It is behind the time by half a century, and is doomed to death by laws, the operation of which (can by no possibility be avoided.—The institutions of the United States were framed to limit the existence of just such parties, and until those institutions are radically changed, no party essentially aristocratic can hope for prosperity, or even for life.

Yet it follows, just as certainly, that there must be in the United States a party, in the highest sense of the word, democratic. We must have a party which acknowledges man as man, under whatever oppression he may be suffering, however lowly may be his lot. We must have a live party, not wedded to the lies and legends of the past, but working well in the present, and hopeful of the future. We must have a party worthy of this intelligent and powerful people.

Such a political organization is a necessity of the times, and it will come just as surely as the sunrise. We do not know by what name it will be called, but we think we discern in the Republican party its germs, destined to be developed, and expanded far beyond the calculations of short sighted speculators.—*Boston Atlas.*

The Coolie Business.—The impropriety of this traffic is fully proved by the fact, that our merchants to who were induced by plausible statements to allow our vessels to be engaged in it upon the first representation of the manner in which it was actually carried on, investigated the subject carefully, and being convinced of its liability to gross abuse, determined to withdraw from all participation in it at once, at whatever pecuniary sacrifice, and such have been their orders to their agents abroad, at the risk of prosecutions for violation of contracts. This course is certainly honorable to their sense of justice, and entitles them to the approbation of the community.—*Boston Post.*

The important news from Mexico is that Comonfort has entirely quashed the rebellion.—The city of Peubla had capitulated to the government forces; the rebel officers were reduced to the ranks, and fifty of them went into voluntary exile, while a rumor prevailed that Uraga had been executed. President Comonfort made a triumphal entry into the capital; the city was illuminated in honor of the victory, and order was generally believed to be restored. The finances, however, are represented as being in a lamentable condition.

Sudden Death. Mr. George T. Barrett, well known to our citizens as a dealer in books and periodicals, died very suddenly at the Bath Hotel in Bath, on Monday evening last. Probably from congestion of the lungs.—*Brunswick Tel.*

IN THE DAILY WHIG AND COURIER

ANOTHER FOREIGN ARRIVAL.

ARRIVAL OF THE

Steamship Arago,

AT NEW YORK

ARRIVAL OF MR. BUCHANAN.

The Arago's news is largely superseded by that of the Arabia

New York, April 23

The steamer Arago, has arrived with intelligence from England to the 9th inst. She brings $1,000,000 in specie, among which are the Hon. Jas. Buchanan, Ex Minister to England, and Hon. Robt. J. Walker, Minister from Holland to the United States.

The government steamers Desperate and Tartarus left 9 days ago in search for the ill-fated steamship Pacific, put into Galway, without meeting with any success.

The Treaty of Peace being signed, all the hostilities were to be ceased, and the merchant vessels of the western powers permitted to enter the Russian ports, and all Russian vessels depart from Russian ports, liberated

A difficulty was said to have existed in the Conference, owing to the refusal of Austria to locate the Danubian Principalities.

The Allied army had commenced taking its departure.

It is reported at Berlin, that the English Cabinet had decided to reject the propositions for the capitalization of the Sound Dues on the terms offered by Denmark, but would make propositions herself.

The French army is to be reduced from 600,000 to 400 000

It is believed that Russia will send an ambassador to Turin as soon as the negotiations are exchanged.

Advices from St Petersburg state that the Government is prohibiting the export of Russian produce had been repealed.

The Czar has issued an ukase stating that the three cents hitherto maintained by Russia on the Black Sea and Sea of Azoff are not to be remitted.

It is said that the exchange of ratifications would be effected on the 20th

Eight money markets had little changed. Foreign bankers heavy Foreign securities dull. Discounting Reports from manufacturing districts favorable.

Paris Conference Austria's pretext for delaying it a time for evacuating the Principalities was the necessity of protecting the Danube against disorder until rather advanced, it is established, although she is bound by treaty not the Ottoman territory on the conclusion of peace Russia strongly opposed the motion

Liverpool Markets.

The sales are very heavy Wheat is a shade dearer Flour—prime qualities in good demand at late rates but inferior western canal is quite neglected Corn, with more offering is quiet lower, the demand is small at 29s a 30s for quarter Corn market steady at former rates Richardson Spence & Co., under date of Liverpool April 8th, say "since finding we have had heavy arrivals of wheat and corn, there has been very quiet and inactive. To-day's market was thinly attended, and in wheat only a limited retail business was done at prices of Friday, for better descriptions, at a decline of 2d per bushel on inferior qualities. For flour there was a fair consumptive demand at late rates Indian Corn is quite neglected New Orleans white sold at 30s 6d, yellow and mixed 29s a 30s per quarter We quote wheat, red 9s 2d a 10s 2d white 9s 9d a 10s 6d Flour, Philadelphia, Baltimore and Ohio 34s a 35s 6d, western 29s a 32s per bbl Beef and pork unchanged."

Congressional

Washington, 23d

Senate Mr Mallory communicated the intelligence to the Secretary of the Navy for Senators to view the steam frigate Merrimac at Annapolis.

At the consideration of the $3,000 000 appropriation bill Mr Bell of Tenn expressed his doubts as to whether this large amount could be properly expended within the present year He thought it better to make only a small appropriation now

Mr Weller said the whole sum ought to be expended forthwith, in order to be used to advantage only

Mr Bate opposed the bill thinking the guns now furnished with percussion locks and Maynard primers would not be capable with breech loading rifles. He thought they would not be serviceable in wet weather. He condemned any expenditure in time of peace, and advocated economy

Mr Case said the administration should not be held responsible for large appropriations. Congress had sometimes made them in opposition to the recommendations

Mr Hale replied that if the democratic party had not controlled Congress generally, particularly the Senate, for a good many years past, they were not to be held responsible

These large expenditures, $70,000,000 or $80,000,000 annually, ought to arrest the attention of the people, for they were made at a time when the people were suffering from hard times from one end of the country to the other

Further discussion of the bill was postponed, and the subject of the Naval Board taken up.

Mr Crittenden stated that Capt. Stribling had claimed the honor of capturing a piratical vessel in 1822 which exploit was in reality performed by Lieut Watson, and upon a correction of the matter being brought to the notice of Capt Stribling, the latter acknowledged that he had mistaken the name of the vessel, being engaged in a similar capture during the same summer

Mr Jones of Tenn vindicated the character of Lieut Bartlett who was assailed on a former occasion by Mr Slidell.

Mr Houston made a reply to speeches of Messrs Clayton and Bayard, in which he referred to the character of Capt. Dupont and other naval officers in not very complimentary terms. He severely censured the Navy Board, and illustrated his remarks with numerous anecdotes

Hon Mr Thurston moved a reconsideration of the vote by which the Senate's amendment to the Deficiency Bill was adopted. The amendment is to prevent the former law, concerning public printing being so construed as to allow the printer 20 per cent for extra compensation

Mr Haven said unless this amendment was adhered to from $20,000 to $100,000 would be annually taken from the Treasury for the benefit of the printers The other day a prominent member of the Republican party, Mr. Stanton declared he would arraign the administration for extravagance, yet he and his friends and gentlemen on the democratic side were found voting together against this salutary amendment. He wanted this draft on the treasury cut off before his party shall come into power

Mr Cobb defended the votes of the democrats, saying that Mr Haven sought to create an impression on the public mind that the democrats are in favor of such extravagance,

when he had not an inch of ground to stand upon He could assure him that the responsibility for large expenditures would not fall on the American party very soon

Mr Congrham said the printer had the same right as others to the 20 per cent and that was none at all. He advocated the reduction of the tariff in order to raise only so much revenue as is necessary for the economical administration of the government.

New York, April 23.

Mr. Buchanan was received this morning by the joint committee of the Common Council, and welcomed as the guest of the city and after wards escorted to the Everett House To-morrow he will receive his friends in the Governor's room at City Hall. He declines a public dinner, and will leave for Philadelphia Friday morning.

Washington, 23d

It is said that an effort will soon be made to abolish the Court of Claims, Mr Greenwood of the House having prepared a bill for that purpose

The President's last public evening reception for the season will be given at the White House on Friday evening.

Joshua Cairns, of the New York Circuit Court, has been summoned to Nashville, in consequence of the illness of one of his family.

Important Notice.

GARDINER CHILSON has just completed & patented in America, England and France his new invention, the CONE FURNACE and asks the special attention of those about erecting or remodelling buildings as well as dealers in Hot Air, Steam, or Hot Water Furnaces, and all interested in steam power, to carefully examine this invention, which entirely CHANGES the PRINCIPLE and CHARACTER of HOT AIR FURNACES—*developing another and a new principle*, and obviating all former objections to their use The practical operation of a number of these Furnaces, erected during the past winter, points out a new discovery in science by which the most wonderful economy in fuel has been attained and clearly demonstrates that the waste heat lost from chimneys is enough to warm every dwelling in the city By this invention the heat formerly lost is made to warm the house

This discovery—a sample in itself—is the daily wonder of those who witness its results, and it becomes a matter of surprise that a plan at once so simple and practic in its operation should thus far have entirely escaped the notice of scientific men We believe that no one who investigates this principle will be unsatisfied to see a Furnace constructed on any other principle, and we would invite all who would witness its operation to call at the store of CHILSON, GOULD & CO, No 99 & 100 Blackstone street.

An agent will soon be appointed for the sale of this Furnace in Bangor.

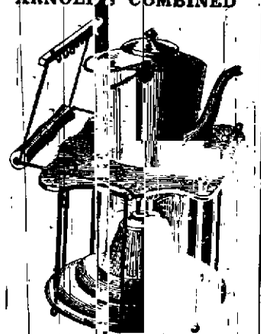
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN, AND NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending, in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external effect.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and as fast from heat in the same length of time.

In fact, the various purposes for which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say anything more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

from whatever cause they may have originated, and

No Matter of How Long Standing.

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints.

It searches out the very roots of the diseases, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure

Certain and Permanent.

This medicine allays pain and inflammation, which other remedies invariably cause, and can be taken with less trouble and expense to patients. This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks,

if not from premature graves. In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOSITION in very agreeable to the taste, creates no disagreeable odor, and may be taken by persons of either sex without hindrance from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them.

Delays are Dangerous.

With this medicine you can cure yourself, and thus prevent all exposure.

Truth must and will prevail.

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity*—And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found, it acting both as a *Cure and Preventive* of any of the above ailments.

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones; Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed; whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and, as consequence, are most frequently improperly made, and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consideration and importance to the public, and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantageous. To effect this, and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty the Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two table spoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.
